

The next screen should look like this:

The 'Spatial Database Connection' dialog box is shown with the following fields and options:

- Server: 155.76.104.2
- Service: esri_sde
- Database: mym_gis
(If supported by your DBMS)
- Account section:
 - User Name: your_username
 - Password: [masked]
 - ☒ Save Name/Password
 - Test Connection button
- Version section:
 - ☒ Save Version
 - sde.DEFAULT
 - Change... button
- OK and Cancel buttons at the bottom.

If the previous step worked correctly, you should see the list of feature datasets within the geodatabase:

You can now begin browsing the database.
